A MONSTER SNAKE .- As Mr. George Knadle was crossing the mountain from Slocum, about one and a half mile from the Three-Cornered Pond and a little to the left of the road, he discovered a large snake coiled around a young hickory tree, tail up. He gradually approached his snakeship, and disovered that a cow was lying at the foot of the tree. To his surprise he was merely milking the cow as a babe would suckle the breast of its mother. Mr. Knadle, after satisfying himself that it was a mutual understanding between the cow and the snake, procured a large club and destroyed the snake. ## THE ORANGEBURG NEWS

GEORGE BOLIVER. FINANCIAL AND BUSINESS MANAGER.

Official Paper of the State and of Orangeburg County.

SATURDAY, AUGUST 17, 1872.

For President: Ulysses S. Grant. Vice President: Henry Wilson,

MASSACHUSETTS.

It is generally believed that L. C. Carpenter, Esq., editor of the Daily Union is the most prominent candidate for our Congressman at Large We say without hesitation that the delegation elected from this County could not please their constituents better than to nominate Mr. Carpenter. He has done more to restore peace in South Carolina than any other one man within her borders. It was his pen and paper that brought the dreaded Ku-Klux party to just punishment, and it will be L. C. Carpenter who will do his whole duty in Congress if elected. \ We say give him your votes, gentlemen

The Convention made things quite lively in our Town during its sessions. Partisan feelings ran very high. This is to be deprecated. The Republican party is one of great and progressive ideas, one of principles and not merely of men. They should be subservient to it, not it to them. We appeal to both sides of the question, and in the name of harmony ask that this kind of battling be indulged in no longer. Let reconciliation be our watchword, and peace in scribed upon our banners. Remeinber, united we stand, but divided we must surely fall. Let each of us put aside our feelings in this matter, and move forward for the sole benefit of our party, our State and an honest administration of affairs, without fear, favor or

The State Convention will come off on the 21st instant. At Columbia on that day, the officers who will control the affairs of this commonwealth for the next two and four years are to be select ed. The importance of selecting men who will be acceptable to the people is patent. All eyes are turned towards the Republican party, and if its representatives in Columbia on the 21st should make nominations unfit to go before the public, we may have cause to regret it as long as we live. Good and faithful Republicans should find a preference at all times with the honest of our side of the political world. At present it is thought that the Hon. E. J. Moses, Jr., will be the nominee of the Convention. He is an able man, and the fact that he is a native of our soil, edentified with us by birth and education, should make him a fit standard bearer of our cause in the present campaign. However, the convention will decide who shall lead us, and in its action-unless it be outragously wrong -we shall have to acquiesce.

### The County Convention.

This body met in this place at the Court House on Wednesday of this week. Quite a lively fight was made over the organization, which resulted in the election of School Commissioner E. I. #### No, Never!

The Democratic party was for 40 years the bulwark and defense of human slavery; it plunged the nation into a sanguinary civil war to perpetuate slavery. The Democratic party, by all its arts and power, resisted the emanci pation of the colored people from slave ry. That party passed and executed the nfamous "black code" against the col ored race. It opposed, to the bitter end, the amendments, giving the black man civil and political rights. The Democratic party organized the vast Ku Klux army of the South, armed them with the funds obtained by wholesale robery, and these Democratic conspira tors have murdered and outraged tens of thousands of colored people, for sup porting the party which gave them their liberty, their manhood and citizenship. The Democratic members of Congress only four months ago voted, to a man against the education of the colored people, and in favor of keeping them in perpetual ignorance. Not a white man of any prominence has ever advocated the rights of the colored people, or been associated with them, politically, to secure these rights, but he has been as sailed and blackmailed by the Democratic party, as the vilest soum of earth. The Democratic candidate for President s Horace Greeley; and Charles Sumner asks the colored people to support him, and so help reinstate the Democratic party in power. Will they do it? From Maryland to Texas they respond with ne voice-"No, nover!"

ASHINGTON, August 13. Colonel Whitely, Chief of the Detec tive Force has addressed the following letter to Aorney General Williams:

"NEWYORK, August 9th, 1872.

"Sir :- have the honor to acknow ledge the sceipt of a communication from your Department, under date of the 2d ident, enclosing a copy of a letter from Gerritt Smith, Esq., addressed to he President, in relation to those convictinthe Albany penitentiary who were envicted of violation of the En orcement Acts, . n l requesting me to go to Abany and make a thorough investigation ato the condition of these prisoners, an report to the Department my views ato the expedience of exerising Execuive elemency in regard to any of them. In accordance with your 7th instant, fc the purpose of fulfilling the duty assiged.

As a meas of conducting my en quiries in a januer best adapted to arrive at all theacts in the case, and al to to lead the pisoners to express themselves as freelyas possible. I deemed it best to see eac) of the parties separately, without any kowledge upon their part as to my officil character or the object of my visit. In this I received the fullest aid of Mr. Lois D Pillsbury head keeper of he prison, who brought each prisoner in separately, with the simply remark to each that this gentleman desires to tak with you.

The prisoners were mainly frank and communicative. Some of them are very poor and unleamed, and have left large families behind them, and while acknow ledging that they were members of the various orders of the organization, known under the general head of Ku-Klux Kien, they had been justly sentenced as such, plead in extenuation that they had joined the order without a full knowledge of its lims and objects, and had been incited to deeds of violence by their leaders, who had managed to escape from the courtry, leaving them to bear the responsibility and the punishment of their misdeeds.

A number of them stated that they had been compelled to join the order to save themselves and their families from the visitations of the Klan. Others had entered into its ranks under the supposition that it was a society organized for mutual pr tection, but learned subsequently that its real designs were the extermination of the pegro race and the driving out of such of the whites as were in favor of the political equality and social elevation of the blacks. These severally expressed the heartiest contrition for their misdeeds and stated that the organization was one inimical to the best interests of society, and that the Government was fully justified in break-

In farther extenuation of having been members of the order, they stated that the operations of the Ku Klux Klan were wide-spread, embracing within its folds men of superior intelligence, to whom they had been actustomed to look for advice and counsel, and whom they did not suppose would lead them into any combinations that contemplated personal violence and even murder, if these were necessary for the accomplishment of its cads. They were told that it was a good institution to put down some meanness in the country, and they accepted the statement implicitly. Up wards of forty examinations were made in the manner above stated, neither prisoner knowing that any one but himself had been called out, and none of them being aware, as before observed,

more or less marked taste for strong five for the State, five for the Congress. chicken laid the eggs, and raised a brood had in view when they joined it. In several prominent citizens who have

of chicos this year, since which time | reply to the general question, what were the objects of the order, the answer al most invariably, when we joined the order we supposed it to be a society established for mutual protection, but after having been fully intiated, discovered it to be for a political purpose, was embodied in an oath, in which we swore to oppose the Radical party in all its forms, and prevent the negroes from voting. It was this great deception that misled us, and which has brought us into our present condition.

The contrition manifested by many of these prisoners, the hearty adherence expressed by them for the acts into the commission of which they claim they were betrayed by unscrupulous and designing men of more enlightened minds, their mutual want of intelligence, and their extreme poverty, all appeal through me for mercy. My views as to the expediency of restoring any of them to society through the exercise of executive clemency, are clearly in favor of such a course with some portion of them. and I believe it may be done in some of the cases, not only with great safety, but fully in the interest of the public

In those to which I intend respect. fully to call your attention, the prisoners appear not only truly repentant, but absolutely ashamed of the course which they seem to have unwillingly pursued They express themselves as anxious to return to the peaceful puersuits of industry, whenever the opportunity is afforded them, and to become law-abiding citizens in their respective communities

Col. Whitely then names four persons safely to be considered as proper subjects for the exercise of Executive elemency They are old men, poor and unlearned, and were undoubtedly led into the Ku-Klux order by misrepresentation. With regard to others, should it be the intention of the Government to make an extended exercise of its clemency in that direction, he submitted the names of eighteen persons whom he deems most worthy of its consideration. As to the remainder of the prisone, s who enrequest, I pocceded to Albany on the tered the Ku-Klux order, with a full knowledge of its real object, Colonel Whitiey says it would not be entirely expedient to exercise the Executive

## Well Never Vote for Greeley.

The Jersey City Times publishes the following incident which happened the other day :

Mr. Pye, of Trenton, was present at the first Greeley meeting in Jersey City, held at Taylor's Hotel. Considering im a sort of High Pye, a Huckleberry above the Scovels and Freeses and Little Kills who were there, they put Pye in the chair.

So much in explanation of what kind f a Pve he is. Now, when he was hanging around Trenton the other day, Pye ot cut into in a munner most astonish

While speaking to a gentleman on the street of the certainty of Greeley's election, he made the assertion that the Democrats, to a man, would vote for him. An old man standing on the pavenent close by, heard the remark, and stepping up to them in who made it, he ild: "I want you to understand, sir, that what you have just said of the Democrots is false. I am a Democrat and have always voted the Democratic ticket, and my three sons are Democrats, and they have alway voted that ticket; but one night I went to a Republican meeting and Horace Greeley made a speech and I heard him say, "show me ten Democrats and I'll show you nine thieves; and now do you think I'll vote for that man or that my sons will vote

"No sir, we'll never vote for him !" The last seen of Pye he was soberly ontemplating the news from North Carolina. He didn't feel well. His friends should give him some relaxation. Let Snyder take Pye to the next Cranbury raising and leave Ryndors at home

BEAUTY'S BEST AUXILIARY .- Ask the belle of the season what appointment of her toilet-table holds the highest place in her esteem, and she will reply, without a moment's reflection, Hagan's Magnolia Balm. Nothing, she is thoroughly aware, contributes so powerfully to enhance her charms and render her irresistible as that most delightful and healthy suxiliary of Beauty. By using it ladies are enabled. tong after they have passed the meridian of life, to preserve the youthful bloom and purity of their complexions, and where Nature has denied that superlative attraction, the Balm fully compensates for her deficiencies.

The question has often been asked by those interested, "Can I have my gray hair restored to its natural color, without coloring the skin? and can my thin locks be thickened up?" We answer. "It can : and would advise you to read a treatise on the hair, which is published by R. P. Hall & Co., Nashua, N. H. who send it free, upon application. They are the proprietors of Hall's Vegetable Sieilian Hair Renewer. We learn from it, the hair, in a perfect state of health, is constantly falling out, and new hairs grow from the same tuber; but in case of any desease of the scale, or by the use of alcoholic preparations the hair-tube becomes contracted at its mouth and prevents the new folicle from reaching the surface. Their preparation will create a perfectly healthy condition of the scalp, and, by its tonic properties, will preserve and strenghten the root of the hair .- Stateman, Des, Moins,
